Solix - Redefining RTLS & IoT Management

Our feature-rich Solix brings simplicity to asset tracking, with the power of effortless geo-fencing with our interactive map feature that allows you to easily mark and define designated areas, ensuring total control over your assets.

Dive into the world of data-driven decision-making with our exclusive Heat-Map feature. Understand asset utilization patterns like never before, empowering you to make informed decisions that drive efficiency and success.

• What's New At Sentrax •

- Solix - Redefining RTLS & IoT Management
- BLE based Hybrid Real-time Location System
- Welcoming Indutrax - Brand of SMF as our Strategic Partner

Don't just manage, master your assets with Sentrax's BLE RTLS

Sentrax doesn't just manufacture RTLS; it transforms your approach to Positioning and Management!

Hybrid RTLS - The Fusion of Proximity and Sub-meter Accuracy

Sentrax offers a smarter, more dynamic approach to real-time location system. Combine the RSSI-based proximity sensing with Angle of Arrival precision, offering sub-meter accuracy. What sets us apart is the unparalleled flexibility it provides to our partners – choose high-precision tracking in one area while efficiently monitoring presence in another. This cost-effective hybrid system redefines precision positioning, revolutionizing the way for location intelligence of assets and personnel.

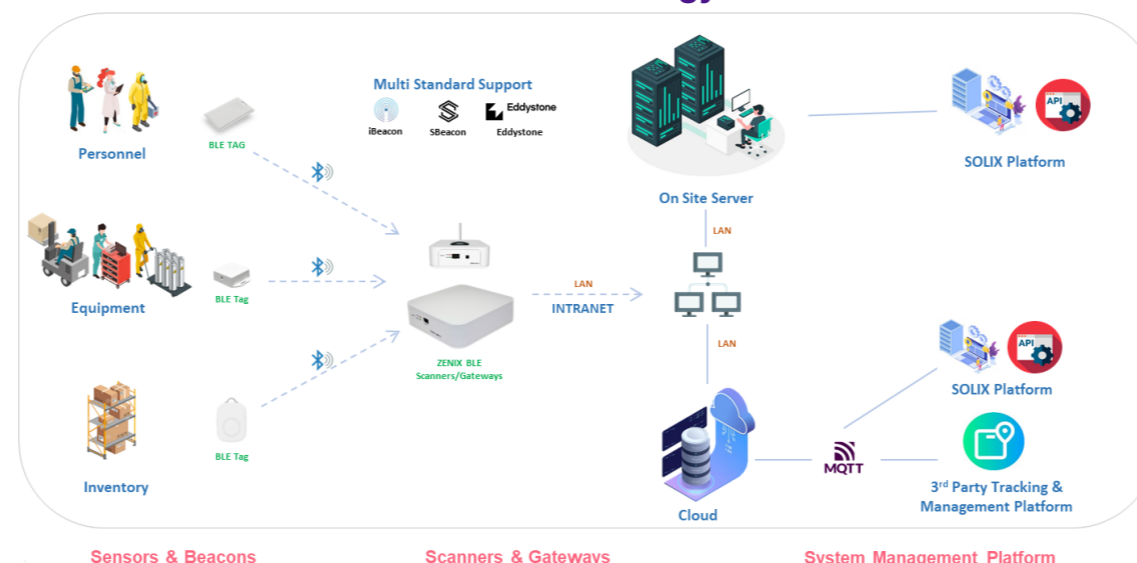

Sentrax Joins Forces with Indutrax - A Brand of SMF!

We proudly unveil our strategic alliance with Indutrax, headquartered in Hilden, Germany. Renowned as a premier provider of Location Aware Software, Indutrax specializes in innovative solutions that seamlessly integrate diverse technologies for location, identification, and sensing with enterprise logistics and production control systems. With over 60 successful location deployment projects for industrial giants like Volkswagen, Daimler, and Magna Steyr, Indutrax brings a wealth of expertise to our partnership.
