Solix - On Premise RTLS & IoT Management

The feature-rich RTLS & IoT management platform is available in both cloud and on-premise versions. With Solix On-Premise, your data stays under your watchful eye, enhancing security and granting you complete autonomy. Adapt the platform to your specific workflows, seamlessly connect with existing systems, and create a customized location intelligence ecosystem that perfectly aligns with your operational needs. Elevate your operational performance to new heights.

• What's New At Sentrax •

- Dive-in to Solix On-Premise RTLS & IOT Management Platform
- POSIX - Positioning and Sensor Interface SDK
- Solix 2.4 Update Released

Solix On-Premise is more than just asset tracking; it's a gateway to deeper operational understanding.

POSIX SDK - Helping Craft Location-Rich Mobile Applications

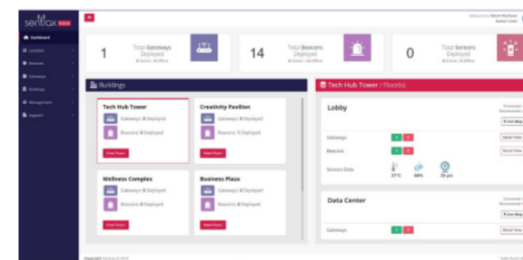

Unleash cutting-edge location intelligence in your apps with Sentrax's POSIX SDK. Integrate seamless user positioning and real-time floor detection through advanced algorithms, empowering intuitive user experiences. Customize 2D maps, facilitate indoor positioning, and unlock endless possibilities for location-based features. **Elevate your app's capabilities and stay ahead of the curve with Sentrax's powerful SDK.**

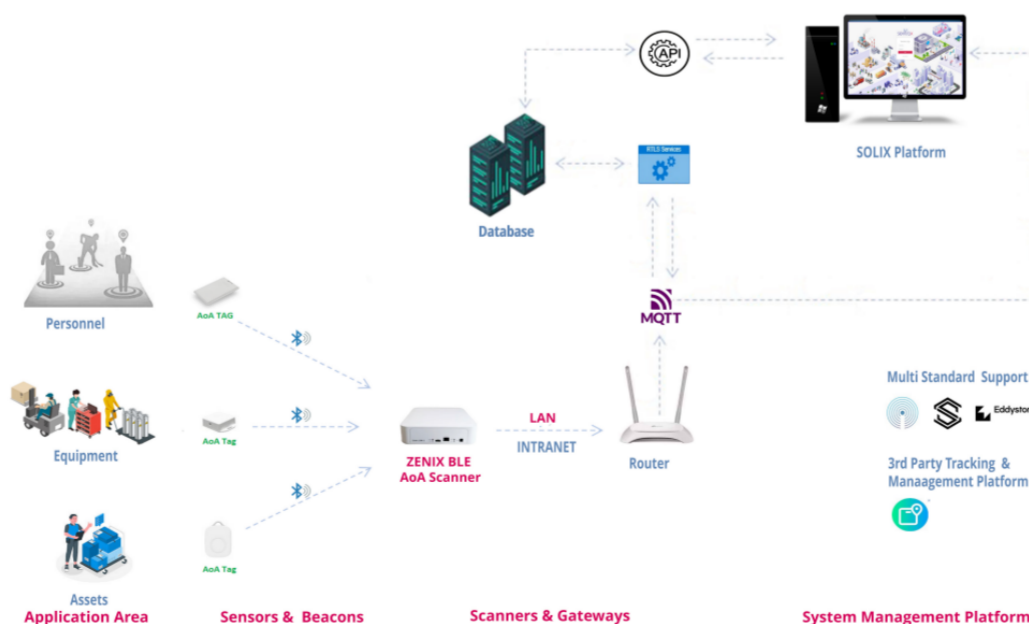

Elevate your app's capabilities and stay ahead of the curve with Sentrax's powerful SDK.

Unveiling the Latest Enhancements - Release of Solix 2.4

The Solix RTLS & IoT Management Platform has just received a feature-rich update, introducing more capabilities than ever before! Stay informed with enhanced notification displays and enjoy a streamlined management experience with the upgraded dashboard, ensuring hassle-free operations. Tag Studio now allows you to efficiently manage tags, filter and categorize them, and assign types and descriptions to each tag.
